

twitter

CHEAT SHEET

tinyurl.com How To:

Tinyurl.com is a web service that will shrink and re-direct your long web addresses into a much smaller, condensed URL. Navigate to tinyurl.com and paste in your long URL into the text box and press 'Make TinyURL!'. Then highlight and copy the entire address and you're ready to paste it into your next tweet.

Reply How To:

To reply to a user's tweet you simply hover your mouse cursor over their tweet and press the reply button, located on the right of their tweet. Twitter will automatically take you to your post textbox and set up their "@username" reply. That's it, you're ready to tweet a response to them that they can track back to their post. This is a great way to give responses and gain followers.

Re-Tweet How To:

RT (or re-tweet) refers to spreading the word about another twitter user's "tweet". The common practice is to re-use what the previous user had said, but send it to the people following you. If @lhodsdon posts something I'd like to retweet, I just copy and paste what he said and put the RT tag in the front. (ie. "**RT @lhodsdon Check out the new storytime video at http://xxxxx...**")

This is an example of a post that has 3 RTs on it. @Vectips started the post and @Sethetter RTed, then his follower, @Cameronolivier RTed again.

Most Popular Twitter Shorthand

RT = Retweet.

PRT = Partial Retweet / Please Retweet.

@ : Reply to [username].

2nd Most Popular Twitter Shorthand
